

Neuroscience Grand Rounds 2025

Neuroscience Grand Rounds 2025 - 2/28/2025

February 28, 2025 – 8:00 AM

Other

Overall Activity Objectives:

- 1 Incorporate into practice current evidence-based practices to get patients with stroke the most appropriate treatment/intervention in the shortest time possible.
- 2 Incorporate disease modifying therapies into the treatment plan for individuals with multiple sclerosis based on the most current clinical research and professional society guidelines and the underlying science regarding mechanism of action.
- 3 Evaluate patients with neuromuscular disease for the use of the latest treatments, based on evidence-based guidelines and publications.
- 4 Treat patients with migraine with the latest agents and strategies when traditional treatments fail.
- 5 Refer patients with Parkinson's disease and other movement disorders for neuromodulatory treatments sooner in their treatment paradigm.
- 6 Incorporate ethical constructs into the delivery of care and communication with patients and their families.

Session Objectives:

- 1 Be able to use modern technology to diagnose neurological disorders.
- 2 Identify and manage complications of treatments.
- 3 Use evidence-based practices in the care of neurological patients.
