

Psychiatry Grand Rounds

Wed, May 27 @ Noon - 1 p.m.

Psilocybin in Modern Psychiatry: Clinical Evidence, Therapeutic Frameworks, and Practical Integration

In Person @ BHP 1233 & Online

Brian Bayze, MD

Assistant Clinical Professor, Psychiatry

Learning Objectives:

1. Summarize current clinical evidence for psilocybin-assisted therapy across major psychiatric conditions (e.g., depression, OCD, substance use disorders, existential distress).
2. Describe proposed neurobiological and psychological mechanisms of psilocybin's therapeutic effects.
3. Identify key components of psychedelic-assisted psychotherapy, including preparation, dosing session, and integration.
4. Discuss safety considerations, contraindications, and ethical challenges in responsible clinical application.

The educational objective for Psychiatry Grand Rounds is to provide mental health professionals with updates on psychiatric topics with the goals of increasing knowledge, competence, and patient care. Psychiatry Grand Rounds are held on Wednesdays (September-May) from 12 to 1 p.m.

Accessibility for All:

We are happy to help make these presentations accessible to all! If you need an accessibility accommodation, such as a sign language interpreter, please reach out to Jamie at jlmanser@arizona.edu or 520-874-4148. We kindly ask for notification as early as possible to ensure we can best assist. Thank you for your interest in our presentations.
